November 10, 2026

Q1:

- Some students listed the wrong consumed and/or produced types in their contracts

Q2:

- Some students listed the wrong consumed and/or produced types in their contracts
- Some students wrote the parameter names in place of the data types
- Some students only wrote contracts for the accumulator function rather than the main function

Q4:

- Some students listed the wrong consumed and/or produced types in their contracts
- Many students forgot requires statements
