Programming Question 1, Post Mortem

This document goes over common errors and general performance on the assignment. We create it using feedback from the graders, and it is meant to be used as a resource to understand common areas that we can improve in.

- All submissions passed the public tests, which consisted inserting and deleting a single elements.
- Some submissions failed on inserting and deleting on a larger number of elements.
- All submissions performed well on memory management, with no memory leakage.
