

Lecture 12 - Administrivia

June 24, 2026

Outline

1. Administrivia
2. Mid-Term Exam
3. SQLite versus MS-Access

Administrivia

1. Instructor office hours today: 15:00-16:00.
2. A01 was due on Friday, June 19. I will post the model solutions once all extension due dates have passed.
3. Mid-Term Exam: 2026-06-25, 16:30-18:20, in STC 1012.
4. Practice questions are posted; I will post model solutions on Tuesday, June 23.
5. TA Office Hours are now posted on our home page.

Mid-Term Exam

1. These details, plus more, will be on the Schedule page of our website, soon.
2. The Mid-Term exam will be closed-book, with no reference sheet. I.e. you will need to memorize the correct usage of RA symbols, and SQL syntax.
3. We will revisit both questions: open- versus closed-book, with reference sheet or without, before the final exam.

SQLite versus MS-Access

1. While writing up the practice questions, I discovered that MS-Access does handle at least one thing which SQLite does not.
2. As time permits, I will format the Company DB into MS-Access file format.
3. I will post the MS-Access version when it's ready.
