

CS488/688 - Introduction to Computer Graphics - Winter 2020

School of Computer Science, University of Waterloo

Instructor: Gladimir V. G. Baranoski, DC3520

Addendum to the Course Outline

Revised Marking Scheme

- Programming component:
 - Assignments: 56%
 - Project proposal: 4%
- Examination component:
 - Midterm: 40%

Students need to obtain 50% in their final course mark in order to pass the course. The previous requirement of passing both programming and examination components of the course independently has been relaxed due to the special circumstances. The instructor reserves the right, where appropriate, to adjust raw marks downward in the case of cheating and upward in other situations.
