

CS 494 – Winter 2019

Legal/Privacy/Ethics Report (5% of course grade)

Each team must submit a 2-3 page report that answers the following questions. Submit your report in PDF format on slack by the last day of lectures.

Intellectual Property

Review the IP Law slides found on the course resources page (<https://www.student.cs.uwaterloo.ca/~cs493/resources.shtml>).

For each of the five IP types answer the following questions.

- Does it apply to your project? If so, describe how. If not, explain briefly why not.
- Are there steps you have taken or could take to protect this type of IP for your project?

Privacy

Review the IP Law slides found on the course resources page.

- What personal information do you collect?
- What steps have you taken or should take to conform to PIPEDA (e.g. disclosure, consent, limited collection, safeguards, removing obsolete data)?
- Does CASL apply to your project; why or why not?

Ethics

Review the CIPS Code of Ethics found on the course resources page.

For each of the four imperatives answer the following questions.

- Does it apply to your project? If so, describe how. If not, explain briefly why not.
- Describe how your project team has or could conform to the imperative?
