

Typical Scenario for Use Case:

Con:Ev: UpdateEvent(URL)

Ev: display event read-only

Con: gotoUpdateEvent(URL)

Ev: display same event modifiable

HERE any scenario from

Con:Ev:

populateEvent(fromDate,toDate,duration,message,showFromHour,showToHour,highlightFromHour,highlightToHour)

BUT with defaults being the current event settings

Ev: display modified event

Con: SaveChanges()

Ev: display modified event read-only
